\$50.00 per person

### **Wine information**

We have been rearranging our wine room in Gloucester the last couple of months. We have moved our beer selection in to the main room to give both the beer and wine more room. We now have 3 price groupings of wine, along with our regular selections. You can now easily come into the wine room and find a large selection of wines in the \$5.99, \$6.99 and \$7.99 price point. In doing a “wine count” we have found that we have over 100 wines in the under \$10.00 range. Add to that our 10% (mixed case) or 15% (full case) discounts there are bargains galore to find.

Come in and check out our selection of Roses for the rest of the summer and into the fall. Another great choice for the summer is a Vino Verde from Portugal. Light and refreshing with a tiny bit of spritz.
